

UH Maui College Campus

Situated on one of the most beautiful islands in the world, the **University of Hawai'i Maui College (UHMC)** is an accredited college that offers two bachelor of applied science (BAS) degrees, a wide variety of associate degrees and certificates. UHMC has been designated as a National Center of Academic Excellence (CAE) in Cyber Defense Education (CDE) through academic year 2024 for the Bachelor of Applied Science (BAS) in Applied Business and Information Technology (ABIT) Degree.

The UHMC inspires students to develop knowledge and skills in pursuit of academic, career, and personal goals in a supportive educational environment that emphasizes community engagement, lifelong learning, sustainable living, Native Hawaiian culture, and global understanding. We will prepare students to respond to emerging challenges in their lives, communities, and the world through compassion,

leadership, problem-solving, and innovation.

The cybersecurity program at UHMC implements a program of cybersecurity education and workforce development that spans program disciplines and encourages newcomers to the field of cybersecurity. The project fosters a sense of inter-disciplinary collaboration and cooperation by creating a variety of engaging cybersecurity modules.

The cybersecurity program at UHMC introduces students to cybersecurity concepts with interactive and hands-on activities that span multiple disciplines. Participants include students majoring in criminal justice, accounting, hospitality and tourism, allied health, and electronics.

Students who wish to pursue additional studies in cybersecurity are provided with internship opportunities at local Hawaiian companies. Despite the Covid pandemic and health restrictions, several interns in the NSF ATE funded CyberSecure project were able to complete their internships.
