## Program Benefits:

- Collaborative learning
- NCAE certified curriculum
- Earn credentials from industry
- CyberGEN.IQ Assessment
- Goals defined by NIST NICE work roles
- Tailored curriculum
- Cloud based
- Adaptable to LMS
- Cloud based learning and employment record
- Project based mentoring
- Built-in internship opportunities
- CyberAlumni

## How to Deploy:

1. Define your Goals
2. Planning and Strategy
3. Gather Resources
4. Design and Development
5. Testing and Quality Assurance
6. Deployment
7. Training and Documentation
8. Monitoring and Maintenance
9. Marketing and Promotion
10. Evaluate and Improve
